Disclaimer & Terms

QR

Overview

Launch a mobile-friendly notary service with AI handling scheduling, reminders, and form templates.

Use your storefront for digital booking and downloadable forms.

QR

Requirements

Verify local rules for commissioning/licensing and e-notary/remote notarization availability.

Equipment: device camera, secure storage, ID checklist; ensure data protection.

Setup Steps

Create a booking page; attach identity verification checklist; add disclaimers and a simple service agreement.

Use AI to draft standard notices and client reminders; store templates in your drive.

Pricing & Packaging

Offer flat-rate mobile visits; add surcharges for rush/remote where permitted.

Bundles: 'Starter Forms Pack' and 'Business Registration Pack' as add-ons.

QR

Compliance & Safety

Follow your jurisdiction's notary laws; maintain journals where required; secure client PII.

Provide educational templates only; do not provide legal advice.

QR

Automation & Growth

Automate appointment reminders, intake emails, and follow-up reviews.

Partner with co-working spaces and real-estate offices for referrals.
